

## **WCS Grand Opening for Texas Compact Disposal Facility 11/10/11**

KOSA-TV CBS 7 News Staff (Midland, Odessa)

November 10, 2011

Andrews County, TX - Low-level radioactive waste will now be able to be disposed of in West Texas.

Waste Control Specialists in Andrews held a grand opening for their new Texas Compact Disposal Facility.

This was video taken when construction first began on the project.

Thursday a ribbon cutting was held for the Texas Low-level Radioactive Waste Disposal Facility, which is the only facility in the US built specifically for disposing class B, C and low-level radioactive waste.
