Dear Mr. Bigham:

In response to your FAX dated December 24, 1996, the U.S. Environmental Protection Agency (EPA) has determined that the Waste Control Specialists, LLC facility (EPA ID #TXD98-088464) in Andrews, Texas, is acceptable for the receipt of hazardous substances, pollutants or contaminants from comprehensive Environmental Response, Compensation and Liability Act (CERCLA) response actions. The facility's actual receipt of CERCLA wastes must be in accordance with State and Federal requirements.

This determination is made pursuant to the requirements prescribed in 40 CFR § 300.440 (58 FR 49200, 49215 - 49218 September 22, 1993) and is based upon communication with representatives of the Texas Natural Resource Conservation Commission. If conditions change, or if new information reveals violations exist, then the acceptability of your facility may be affected.
